
for more events show one small image in calendar?

I try to edit Chromophore skin and I would like to ask if there is possible to set more events in one day, but in the calendar show ONLY ONE small image?

Now it is, when I add in one day two events, in calendar I see two small images and I would like to see only one small image. It is possible?

Thanks

Try setting the "showalways" to "0" in the categories.
