
Bang Commands

Posted by knowbase - 2008/09/01 12:15

What are all the !bang commands that could be used with rainlendar? Do you need litestep to use bang commands?

the bang command where u switch thru months work, but commands like !RainlendarRefresh is not working for me. is there a complete list somewhere?

You can download the old version and check from the help file for all the !bangs: <http://www.ipi.fi/~rainy/legacy.html>

Note that Rainlendar2 doesn't support all of them.
