
help. i suck at this.

Posted by andywakeup - 2008/10/27 22:28

ok, this question is regarding rainmeter. don't even know if i'm posting this in the right place.

i used to have it set up on my previous computer but, how do i get the computer usage graph to show up as a tray icon?

sorry, i know it's probably a dumb question but i don't know where to start. any help would be appreciated. thanks.

Add this to Rainmeter.ini:

Measure=CPU
