## Google added tasks to Gmail - possible to use?

Posted by Gideon007 - 2008/12/09 11:18

---

<http://gmailblog.blogspot.com/2008/12/new-in-labs-tasks.html>

Google added a to-do list in Gmail. What do you think, possible to use this with Rainlendar in the future? As of yet, there is no mention whether it is accessible like the calendars...

If they provide a some kind of API for the tasks then probably.

Hi, I'm also interested in this feature. Any news??

Bye, Thomas

This needs to be solved before I can do anything about it: <http://code.google.com/p/gdata-issues/issues/detail?id=987>

Keep us updated about this! It'll be amazing if we could use Rainlendar with Gmail! :woohoo: :woohoo: :woohoo:

Thanks!
