## outlook: 1 question

Posted by realkruger - 2009/01/11 13:06

---

hi! thank you for rainlendar. i use it every day now!  
it works perfectly together with outlook. but its annoying there is no possibility to sync from rainlendar to outlook. so i have always to start outlook to make a new task.  
is there any way to make this work?

thanks for your support

Are you using the latest version? It can create and edit the Outlook's tasks and events directly.
