
How do I Keep rainmeter on after Restart?

Posted by Gotmilk - 2009/02/14 14:26

just got rainmeter for my vista but I don't know how to keep it on after restarting/shutting down my computer?

I'm using 0.14 for my 32 bit

thx

Vista doesn't have a "startups" folder in its Start menu?

yeah it does, but what do I do with it?

(I'm really inexperienced with Rainlendar)

Make a shortcut to the program, and drag it into the Startups folder. (This works with Rainmeter, Rainlendar, and actually, any app whatsoever. :)
