Hi,

I want to know if I install PRO version in office (pc) and home (pc) and then will sync to Google Calendar from office or home. How many license I need to buy ??

Thanks
Jimmy

The FAQ says:

I have several computers, do I need to purchase multiple licenses?

Probably not. The license is personal so you can install it on as many computers as you want to as long as you are the only person who is using the licensed Rainlendar.

I recommend you buying it. I'm using it just like what you described, one install at office and one at home and both synced.

I love this program and am bullying all my colleagues into buying it as well ;)
