Hi, do you want synchronize your phone with Rainlendar (in Windows)? ;)

Try this:

Check your Phone Compatibility: <http://www.mobtime.com/en/cpm/compatibility.php>

Download MobiTime Cell Phone Manager <http://www.mobtime.com/en/cpm/down.php>

Connect your phone and export your calendar in ".vcs" format

Rename "your_file.vcs" in "your_file.ics"

Import it with Rainlendar!!! :woohoo:
