
Improved Soeima's Skin - possible to share?

Posted by Fannon - 2009/03/07 03:51

Hey there,

the day i rediscovered Rainlendar i was looking for skins that fit my needs and I've found this one, which i really loved:
(Someia's Skin - horizontal)

<http://customize.org/rainlendar/skins/61676>

I've found a few bugs in it and the font was rather hard to read on my display. So i started bugfixing and improving this skin (making width changeable, bigger Icons etc.)

Just wanted to ask if it would be possible to share this skin to the community. I already wrote an email to the author and got no reply (some days ago).

The skin is slightly based on your Shadow skin.. and this one is GPL.. so Someia's skin have to be GPL, too?

I'll add a screenshot of my desktop (also adjusted a rainmeter Skin to my needs...)

Please please please share this!!!

I love soeima skin but yours is better. You should share this and give credits to the original author, like other skinner do.. something like:

"... based on soeima's original skin"

It shouldn't be any problem since skins are free anyway.

P.S: Tried to contact the author as well but go no answer too
