
execute an ini from another ini.

Posted by periferral - 2009/03/11 18:16

is there a way I can load and execute another ini from an ini.

can i from one ini file, load another ini and hide the current one?

If an INI file is the same directory...

e.g. LeftMouseDownAction=!RainmeterActivateConfig Folder open.ini

other directory...

e.g. LeftMouseDownAction=!Execute
